

## TC<sup>3</sup> Health, Inc., Celebrates Over \$100 Million in Savings

TC<sup>3</sup> Health, Inc., an industry leader in loss control, data integration and decision support technologies celebrates a reported savings of \$109,781,779.

Daniel T. Day, TC<sup>3</sup> President & CEO states, "These dramatic results demonstrate TC<sup>3</sup>'s commitment to bridging the gap between internal claims management systems and external loss control programs."

Founded in 2001, TC<sup>3</sup> Health, Inc. provides healthcare payers with a total claims management solution that seamlessly and electronically integrates claim transaction systems with external loss control programs. Utilizing proprietary claims management technologies, TC<sup>3</sup> targets the estimated \$250 billion in healthcare claims overpayments to validate payment integrity and maximize savings for healthcare payers. TC<sup>3</sup> enables payers to take advantage of state-of-the-art loss control technologies through a single connectivity source that prevent claims errors on a pre-payment basis, while reducing paid claims by up to 3-10% annually.
